President's Corner

Dear EAC members:

First of all, Fran, you are welcome back; Hope you had a nice trip. Also welcome to our two and potential members of EAC visitors at our last meeting: Charlene Dodson and Phyllis Pettay. Hope you enjoyed the experience.

As time goes by, the ideas of creating new art with recyclables is overwhelming. The beauty is, that I have at home the disposables and I did not know what to do with them until nature inspired me with ideas. For example, I have blind strips, plastic cups, cement blocks that I can use them in different ways to come up with new and beautiful arts and crafts. Have more ideas for using the CDs, aluminum foil, electrical wire, wrapping paper, etc. You can do the same thing. The possibilities are abundant with each recyclable item we have. We are lovers and protectors of our Mother Earth. Let's find new ways to lessen our trash by **convert it into beautiful decorating or useful**

arts and crafts while having fun doing it.

I hope you are ready for the show at the Library. We need to make a good impression on the viewers; we have to show them what is possible, we need to inspire them so that they start thinking in those terms. **This way of thinking is necessary to achieve our goals and to get new members for the club.**

I attended to an SCFD workshop to start getting ready when we get the 501c3 and can apply for a grant through SCFD.

I gave demo at the Highland Trails Senior Center. They like it, but I can see that only one person will be interested in becoming a member of EAC. They are supposed to let me know.

The possibilities are beginning to open to teach classes. Please let me know if you are interested. For now, Isolde, Lavonna and myself are going to teach some classes at the Jefferson Academy Elementary. We have to start thinking about the **Earth Day Celebration** at the Library. We need teachers. Please let me know. Aura
