Lavonna O'Korn will show us how to "Explore new ideas using Recyclables"

President's Corner

Dear EAC members:

Since we are lovers and protectors of our Mother Earth, let's find more and new ways to lessen our trash by **converting it into beautiful: decorating or useful, arts or crafts**, while having fun doing it.

We are welcoming our two new members Charlene Dodson and Phyllis Pettay. We hope you can fulfill your expectations and let us know how we can do the best toward this end for you and everyone else.

We are having our second show at the Library. It is going on well. We are making several good impressions on the viewers and have several compliments. We have two new participants: Charlene and Nelli. Thank you and congratulations. We need everyone to take part in these events.

As a consequence of Isolde's initiative, from now on, in each meeting we are going to create and finish a piece of art, ready to be shown in our next display. This is very

important because we have a show somewhere every month, and we need art for this purpose; also we need to inspire people so that they start thinking in those terms. **This way of thinking is necessary to achieve our goals and to get new members for the club.** This should not be difficult as we can use some of the inherent attributes of the recyclable materials we are working with and the possibilities are infinite.

The Highland Trails Senior Center has no interest in classes. The Armory is very interested on us. They liked our show last year and saw our show this year, and we are approved for a show in May this year. The interview at the Jefferson Academy Elementary went well. The classes will be on April 11. Lavonna, Isolde and Aura will be teaching them. Hopefully we are getting ready for the **Earth Day** Celebration on April 22 at the library with classes. We need teachers. Please let me know. Aura
